

AIESEC ALUMNI NEWSLETTER

JANUARY 2012

Dear Fellow Alumni,

This is a "first" which needs to be remembered! For the first time an Alumni Newsletter is being distributed which is jointly edited by AI and AAI. This is yet again a reflection of the close and collaborative working relationship between the two AIESEC bodies, what seems logical since one is the mere continuation of the other.

The AIESEC experience we have all had has impacted in our future personal and professional lives well beyond our student days. This culture, this philosophy, this ethic is what alumni take forward and what AAI should reflect. Alumni can and do maintain solid links and co-operation among themselves irrespective of race, geography or generation.

In addition, alumni are eager to preserve ties with the student bodies, whether Local, National or International. On the other hand, the student body, through the AI as its permanent and representative secretariat, encourages the development and positive utilisation of alumni to help fulfil AIESEC goals and aspirations. This communion of interests is manifested by the desire of both AI and AAI to show a common front in its communications with Alumni. Here is the palpable proof of our intentions! May this continue and further thrive in the future.

President
AAI

Dear AIESEC Alumni,

I'm very happy and excited to be writing to you in the first joint alumni newsletter.

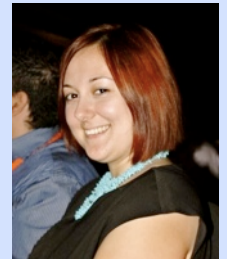

Last year a lot of work has been put in place to ensure proper collaboration between AAI and AIESEC International. Today I'm delighted to see those efforts bringing visible results.

Once again, I would like to take this opportunity to invite you to the AIESEC Alumni International Congress 2012 in Hungary. It's a really big opportunity for us to put our dreams and words into action and come to a unified mission and vision driving all generations of AIESECers towards a common purpose.

Thank you!

Greetings from Rotterdam
